Zeiss 20x60 BS/GA T* Binoculars

\$4499.00

Item URL: http://www.belaircamera.com/zeissbinoculars468_1.php

Serious naturalists have flocked to this uncanny instrument for its ability to stabilize an image at the push of a button. The 20x magnification is keenly efficient as well. So free-hand observation is standard operating procedure. Expect outstanding performance at twilight, with contrast that translates into clarity. Excellent for distant observation without leaving the trail. Operates on a Zeiss exclusive system that eliminates the need for batteries or gyros.
